## TEDDY WILL NOT BE AT CHICAGO CONVENTION

Announcement Makes Those Fearing a Speech by Colonel Breathe Easier.

CHICAGO, May 13.—Col. Roosevelt will not be in Chicago for either the Republican or the Progressive national conventions. He is to remain in Oyster Bay, but he will be in instant touch with both of the big political events.

This information came from a source that is in closest touch with the colonel and is considered as authoritative. It sets at rest some fears of representatives of the field of active candidates for the Republican nomination.

The one hunch of danger heard in all the rival camps is that T. R. will get into the convention, make a speech and start something that all candidates working together couldn't stop.

### Proposal to Muzzle Him Heard.

This worry had reached the stage where the advisability of preventing the colonel from speaking, if he did come to Chicago, was seriously considered by managers of active candidates. The element—not substantially large—that wanted to shut him out was promptly squelched, according to reports. It was urged on behalf of this minority that the colonel is not a delegate or an alternate, and technically not entitled to be heard.

The ultimate decision was that the crowd that had to shoulder the responsibility of squelching T. R. would be committing political hari-kari. The only thing that happened formally was the fact that the national committee's subcommittee of the suggestion that Mr. Roosevelt be temporary chairman and that Mr. Taft be permanent chairman, thus taking care of the two Republican ex-presidents.

The colonel, apparently, has settled the matter by making his plans to stay away. The possibility remains always that the program may be overturned in a jiffy and that he will repeat the procedure of 1912, when it also was announced that he would not come to Chicago. When the crisis arrived he came, and a sensational reception awaited him.

Substantially all Progressive delegates have been elected. Illinois is about the only state that is not formally instructed to vote for Roosevelt.

The difficulty now is reported to be that the Republican situation is so chaotic that inside political wisdom dictates that the colonel's nomination be delayed as long as possible. It is not considered advisable to have his nomination formally by the Progressives until the regular campaign shall have gone through at least a dozen ballots.

The Progressives have nothing to do except adopt a platform, nominate Roosevelt and the vice presidential candidate and adjourn. They can do this in two days. The report in Chicago is that the national committee Thursday may determine upon a recess until there is a line on what is to happen at the Coliseum.

## PAIGE

The Standard of Value and Quality

IN the earlier days of the automobile industry, wealth and social position traveled almost exclusively in the car which bore a foreign maker's name.

But times have changed — standards of value have changed—personal view points have changed.

People of wealth and social position still insist upon luxury and elegance in their motor cars. But, now, they also demand at least a fair return upon their motor car investment.

It is for this reason that the Paige, Fairfield "Six-46" has been so universally adopted by well-to-do people in all sections of the nation.

In beauty of line and design, this car rivals the most artistic productions of Europe. It is refreshingly distinctive, and embodies every convenience and luxury that a critical motorist could desire.

It is a big car, a powerful car, a comfortable car—and, withal, an economical car. It is literally and actually "the standard of Value and Quality."

The price—complete—is \$1295.
